ABSTRACT

In this article, notion of lacuna is described as a difference of comparable languages and cultural peculiarities. To compare two languages' lexics, it can be seen that, there have got emptiness in the semantics, "white spots" or loanwords at either language. These situations may be cause the intercultural collision. And also is discussed the difference of lacuna-singulars and lacunas.

Keyword:

linguoculturology,
lacuna, lacuna-singular,
ethnorealia, realia,
cultural lexicons,
